LOW KEGCOOLERS - INSTALLATION EXAMPLES

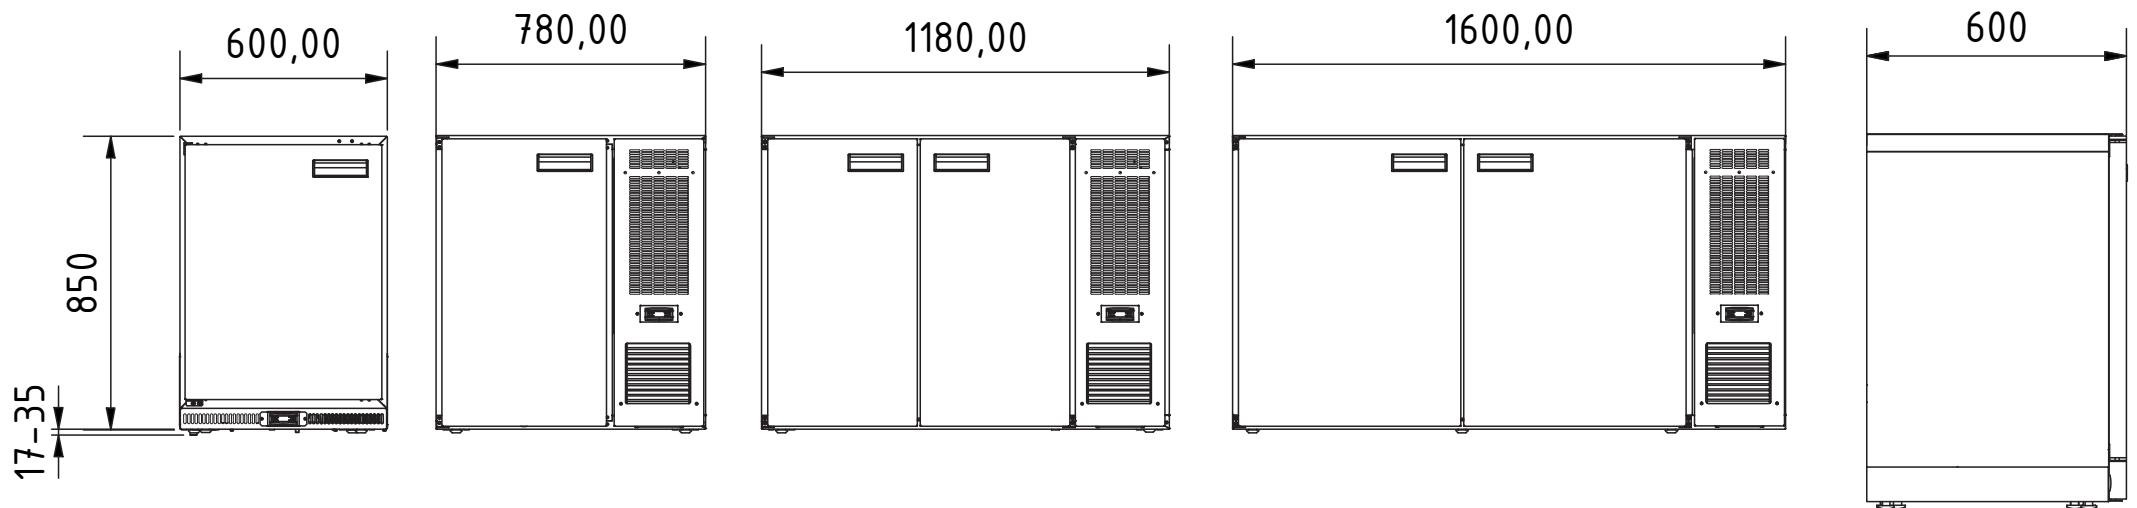

KEGCOOLERS 600 - 780 - 1180 - 1600

The image shows the three setup options for our cooler range
The row on the left shows the coolers installed in two different ways in an existing bar, either the cooler is mounted without a SS Top under the bar counter, or with the SS Top, which the replaces the bar counter.
The row on the right shows the standalone versions with wheels mounted.
